

# Motorways of the sea

Two existing projects from Poland

# Gdańsk – Rotterdam (Motorway of the Sea – project)

PORT OF GDANSK AUTHORITY S.A.

EUROPEAN SEAPORTS EXCHANGE PLATFORM  
SHARENET

within  
the European Territorial Cooperation  
Interregional Cooperation Programme "INTERREG IVC"

**INTERREG IVC**

INNOVATION & ENVIRONMENT  
REGIONS OF EUROPE SHARING SOLUTIONS

# BENEFITS OF THE PROJECT:

- facilitated access to ship owners by usage of the contacts of other project-partners
- possible development of new sea shipping lines (connections), due to facilitated (exchanged) contacts with ship owners
- initiating the common undertakings and exchange of experience between seaports - partners
- access to the (transport) market research
- data exchange concerning transport/forwarding market (research, trends, prognosis)
- better connection of the port with its hinterland, i.e. access to news and information about investment in the region(s), dominant producers, developments in the industry (industrial branches)
- establishing directly trade/ business contacts
- promotion of the port as being the essential element of the region(s).
